

**A warm
welcome to
children living
in or visiting
the Netherlands,
your teachers
and parents too!**

If you want to improve your English and learn about the history, nature and culture of the United Kingdom you are in the right place.

And guess what?

You will be doing this in a fun and interactive way alongside children in five other European countries.

We invite boys and girls to improve their English and knowledge of the Netherlands by being engaged in fun activities.

Children will play a board game, create a comic strip and design short stories for mini films on our beautiful country, the Netherlands..

In parallel, children living in Belgium, Bulgaria, Romania, Spain and the Netherlands will be doing the same activities in their own language and about their own countries.

We invite pupils in Kent, 6-12 years old, already living here for a while or newly arrived. English is not their first or only language and they would like to improve their language skills while learning more about the country. Children may be originally from another country, or bilingual and they enjoy learning in a fun way.

We invite teachers and parents to engage their pupils and children by contacting:
kkolyva@gmail.com

All activities are free and co-funded by the EU.
